1.MARKET OVERVIEW OF GAMEFI, METAVERSE,PLAY TO EARN

Currently, the Gamefi, Metaverse, and Play to Earn industries are being considered as areas with strong growth potential in the gaming and information technology industry.

1.1 GAMEFI

Blockchain games have brought a new breeze to the gaming industry in general and the blockchain technology industry in particular. The harmonious combination of tokens, NFTs, new mechanisms and in-game economy, Gamefi brings value to the table. for users, No longer have to pay to win, but gamers can make money with their talents when participating in king of legends.

1.2. METAVERSE

Metaverse is a virtual universe where users can interact, participate in different activities, and communicate. There are many opportunities to explore in this space, including developing new platforms, managing virtual lands, creating digital content, and building the ecosystem and technology to support the Metaverse.

1.3 PLAY TO EARN

Play for Money is a business model where players can earn real value by playing games, such as money or digital assets. This sector offers many opportunities, including developing and managing new Play to Earn gaming projects or platforms, creating engaging content to attract players, building ecosystems and supporting technologies. Play to Earn support as well as develop support services such as trading platforms or digital asset management tools.

3. THE KING OF LEGENDS' ECOSYSTEM

King of legends is a metaverse platform built specifically for the gamefi project. The project focuses on building a comprehensive ecosystem for game players, investors and game developers.

The king of legends ecosystem includes:
- GAME Kingoflegends versions Mainnet 1.0, Mainnet 2.0, Mainnet 3.0
- NFT MAKETPLACE
- STAKING $LOH

3.1 MAINET 1.0

- Currently Mainnet version 1.0 was released in April 2023 and has been integrated on all 3 operating systems: PC, Appstore, Google Play

- The reward gamers are being paid when playing the game is BNB. After the KOL Token is listed on the Bitmart exchange, we will pay the reward with the KOL Token

- Build a simple community to know about King Of Legends

- Attached Products: NFT ERC 1155 Collection (for the community – build and collect)

https://kingoflegends.net

3.2 MAINET 2.0

- Mainnet 2.0 will upgrade the full map of 3 factions (add boss mode)

- Released new collection ERC 721 NFT

- Buying ERC 721 NFT will allow players to enter higher level maps (higher earnings than default map)

- It is expected that MAINET 2.0 version will be released in Q4/2023

3.3 MAINET 3.0

- Mainnet 3.0 will have a battle between 2 players (solo vs solo)

- Opening King Of Legends Tournament (Only players who purchased ERC 721 NFT)

- Boosting King Of Legends on the World's Largest Crypto Platforms

- Invite streamer, professional gamer to promote King Of Legends

- Focus on building the King Of Legends brand and selling NFT in the market

- It is expected that MAINET 3.0 version will be released at the beginning of Q2/2024

Mainnet 3.0

https://kingoflegends.net

3.4 SUMMARY

King Of legends is gradually completed as well as educating users.

- Updated time for main net 2.0 and 3.0 follow closely the market's wave.

- Promote purchasing power and the awareness of users all over the world.

3.5 NFT MAKETPLACE

NFT marketplace is part of the king of legends ecosystem. Allowing game players to buy and sell NFTs and in-game items. kingoflegends' trading market was launched in March 2023 and has been in operation until now.
