# 1. OVERVIEW OF KING OF LEGENDS

## KING OF LEGENDS

**A Breakthrough in Blockchain  
Technology and Gaming!**

King of Legends is a technology development company that pioneers in the cryptocurrency and online gaming markets. Since its inception in 2021, King of Legends has tirelessly worked to build and perfect its diverse ecosystem over three years.

The goal of King of Legends is to become a leading technology company in the cryptocurrency sector, continuously offering innovations and comprehensive solutions for users.

## 2. OVERVIEW OF KINGCHAIN

# KINGCHAIN

Kingchain, developed by the King dev team under the Linux Foundation, is an open-source blockchain platform. Designed to facilitate application development in the gaming sector, Kingchain supports both public and private networks, providing flexibility and scalability for developers.

## 5. PARTNERS OF KING OF LEGENDS

King of Legends collaborates with numerous prestigious and influential partners in the industry, including the Hong Kong Blockchain Association (HKBA.Club), Com 2000, iDom Capital, Gempad.app, and others.

## 6. ECOSYSTEM OF KING OF LEGENDS

King of Legends is continuously developing and expanding its diverse ecosystem of products:

01

KING OF LEGENDS

King of Legends GameFi 3D: The first blockchain-integrated 3D GameFi with Mainnet versions 1.0 and 2.0, available on iOS, Google Play, and PC platforms.

02

NFT

King of Legends NFT Market: A marketplace for trading NFTs accessible at [market.kingoflegends.net](https://market.kingoflegends.net).

03

KINGWALLET

A decentralized wallet offering a secure and convenient solution for storing and managing digital assets.

04

AMM

Kingswap Decentralized Exchange (AMM): Supports flexible and autonomous trading.

05

BLOCKCHAIN KINGCHAIN

Supports both public and private networks, providing flexibility and scalability for developers.

Together, these components form a robust technology ecosystem aimed at delivering leading cryptocurrency and blockchain solutions.

## 6. ECOSYSTEM OF KING OF LEGENDS

### 6.1. MAINNET 1.0

The Mainnet 1.0 version was released in April 2023 and has been integrated across three operating systems: PC, Appstore, and Google Play.

- Players are rewarded with \$KOL for participating in the game.
- A straightforward community has been created to help everyone better understand King Of Legends.
- Additionally, the product includes an ERC 1155 NFT collection designed for the community to build and collect.

## 6. ECOSYSTEM OF KING OF LEGENDS

### 6.2 MAINNET 2.0

The Mainnet 2.0 version has been launched and is now available on PC, iOS, and Google Play platforms.

- This update introduces a complete map for three factions and adds a new boss mode.
- Additionally, a new ERC721 NFT collection has been released.

# 6. ECOSYSTEM OF KING OF LEGENDS

## 6.3 NFT Marketplace

The NFT marketplace is an integral part of the King of Legends ecosystem, enabling players to buy and sell NFTs and in-game items.

The King of Legends trading market was launched in March 2023 and continues to operate.

# 6. ECOSYSTEM OF KING OF LEGENDS

## 6.4 KingWallet Decentralized Wallet

KingWallet is a multi-chain, self-custody cryptocurrency wallet and a secure gateway to thousands of decentralized Web3 applications.

As a self-custodial crypto wallet, KingWallet empowers you to have full control over your assets. This means no one can freeze your funds, halt your withdrawals, or access your funds without your consent.

KingWallet is notable for being the first decentralized wallet to expose 18 and 24 character seeds without resulting in any loss of funds.

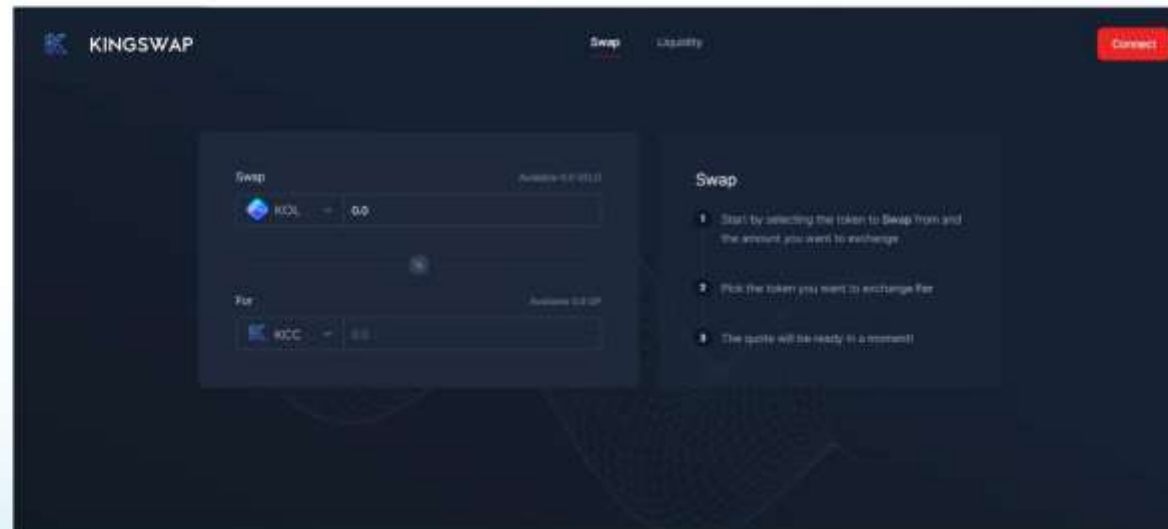

## 6. ECOSYSTEM OF KING OF LEGENDS

### 6.5 Kingswap AMM DEX

AMM, which stands for Automated Market Maker, is a mechanism that facilitates market making automatically. Unlike traditional trading methods that utilize an order book, where buyers and sellers independently set prices to liquidate their assets, AMM enables automatic transactions without the direct involvement of buyers or sellers.

Kingswap is the first decentralized exchange on the Kingchain Network, supporting the listing and trading of various coins and tokens that operate on the Kingchain Platform.

## 6. ECOSYSTEM OF KING OF LEGENDS

### 6.6 Blockchain Kingchain

Kingchain's vision is to establish a comprehensive blockchain ecosystem where individuals can connect, set up, and transact in a secure and transparent manner. The aim is to encourage widespread adoption of blockchain technology, making it accessible, efficient, and reliable for users at all levels. Kingchain is committed to creating an open, flexible, and sustainable platform that supports innovation and development not only in the GameFi and Web3 sectors but also in various other fields, contributing to a more equitable and sustainable future through the power of blockchain technology. Kingchain employs the Istanbul Byzantine Fault Tolerance (IBFT) 2.0, an enhanced version of IBFT, providing a Byzantine fault-tolerant consensus solution. IBFT 2.0 ensures that all transactions and blocks are reliably confirmed in the network, even in the presence of untrustworthy or malicious nodes, thus laying a solid foundation for the stability and security of the Kingchain network.

Specifications of Kingchain:

Official RPC: <https://rpc-mainnet.kinggamer.org>

Chain ID: 2425

For more details on the consensus protocol, please refer to: <https://arxiv.org/pdf/2002.03613.pdf>

# 7. MARKETING STRATEGY OF KING OF LEGENDS

King of Legends implements a diverse marketing strategy to enhance brand recognition and encourage community engagement:

## Organizing AMAs

- Conducting AMA sessions on Binance Square, attracting over a hundred thousand viewers.
- Hosting AMAs on Twitter with the Hong Kong Blockchain Association (HKBA) and on YouTube.

## Participation in Events

- Featuring at major conferences and events alongside renowned exchanges such as Binance, Bitmart, and Coinstore.
- Attending and organizing panel discussions with exchanges to strengthen partnership ties.

## Investment and Partnerships

Acting as a principal investor and partner in major events organized by SoftBank Global in Hong Kong.

## Hosting Large-Scale Events

Leading large-scale events, inviting nearly 1000 attendees, including prominent speakers from the blockchain industry and investment funds like IDOM Capital, HKBA, and Binance.

King of Legends implements a diverse marketing strategy to enhance brand recognition and encourage community engagement:

## 8. OVERVIEW OF \$KOL

Token Name: KOL

Total Supply: 1 billion

## 8. OVERVIEW OF \$KOL

### 8.1 \$KOL Token Allocation

Pre-sale	20% (TGE 20%, locked for 8 months, vesting 10% per month)
Team	15% (TGE 20%, locked for 12 months, vesting 10% per month)
Partners	10% (TGE 20%, locked for 6 months, vesting 5% per month)
Game reward	10% (TGE 50%, locked for 6 months, vesting 5% per month)
Affiliate Marketing	15% (TGE 100%)
Marketing	5% (TGE 100%)
Staking reward	20% (TGE 30%, locked for 4 months, vesting 10% per month)
Liquidity	5% (TGE 100%)

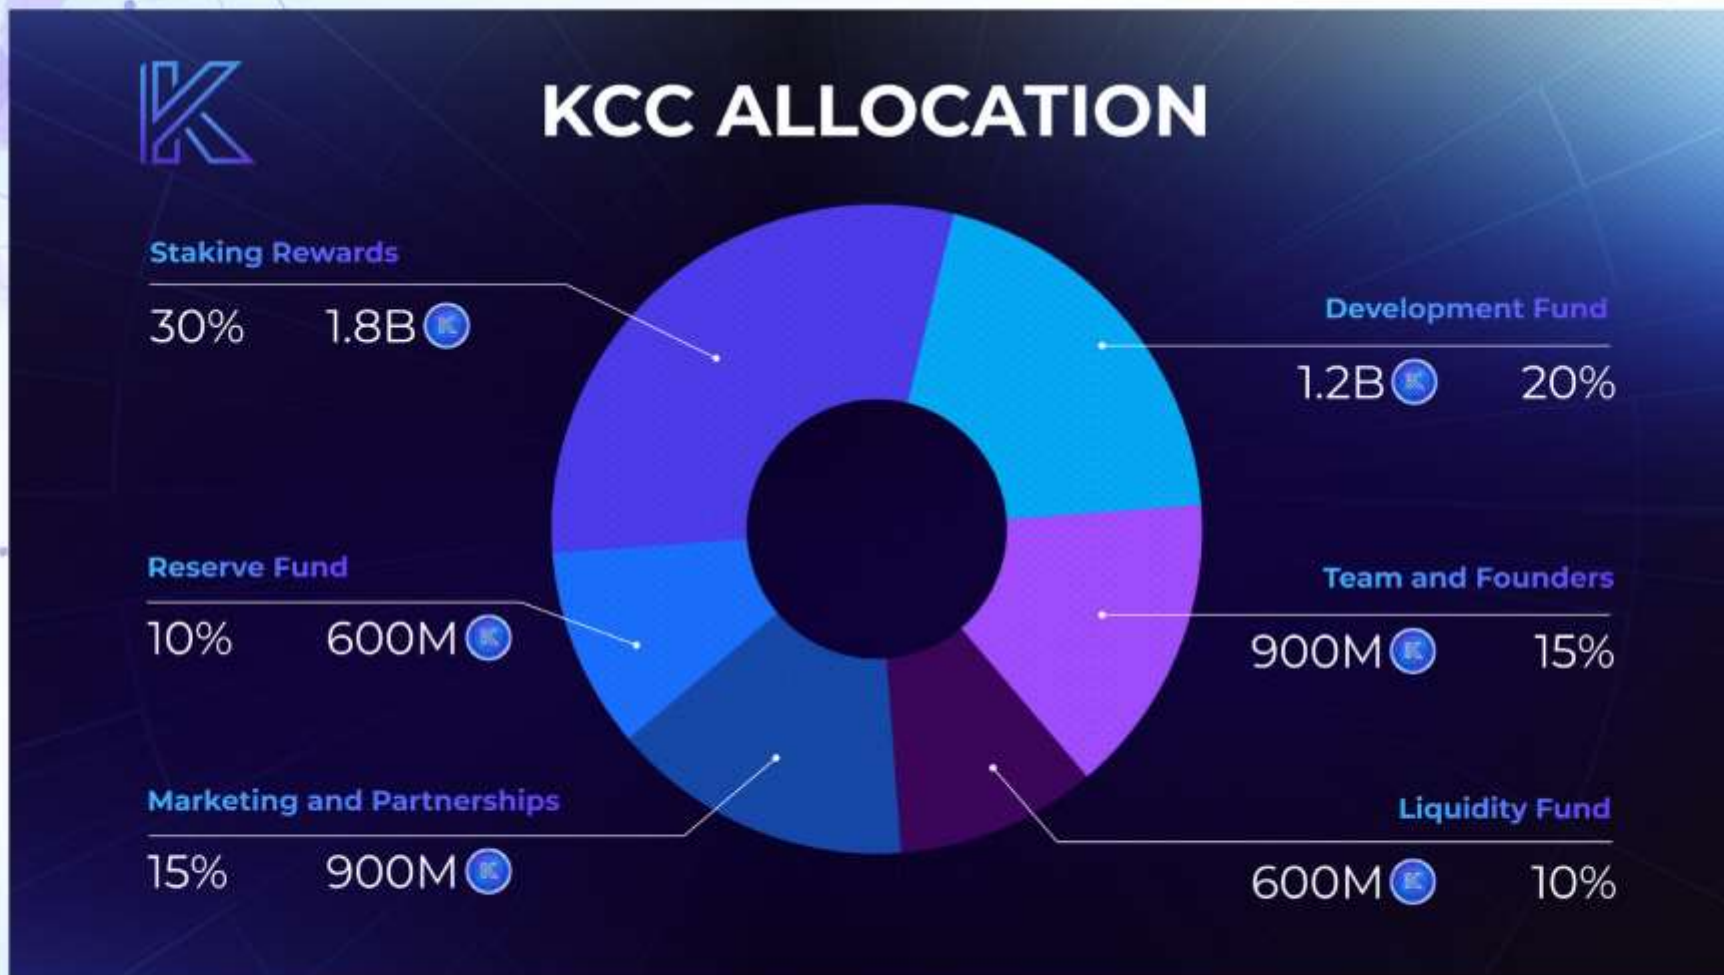

## 9. OVERVIEW OF \$KCC

Total Supply: 6 billion KCC

## 9. OVERVIEW OF \$KCC

### 9.1. Token Allocation

Category	Percentage	Amount (KCC)
Staking Rewards	30%	1.8 billion KCC - allocated to investors participating in staking KOL and LOH, to encourage long-term participation and support.
Development Fund	20%	1.2 billion KCC - for product development, updates, and system maintenance.
Team and Founders	15%	900 million KCC - with a long-term unlock schedule. (10% annually unlocked, starting one year after the official launch).
Liquidity Fund	10%	600 million KCC - to provide liquidity on exchanges.
Marketing and Partnerships	15%	900 million KCC - to promote brand recognition and expand partnerships.
Reserve Fund	10%	600 million KCC - for contingency purposes to ensure ecosystem stability.

### 9.2. Unlock Schedule for Team and Founders

01

**Allocation Percentage:** 15% of total KCC supply (900 million KCC).

02

**Unlock Start Time:** One year after the official token launch.

03

**Unlock Rate:** 10% of the allocated tokens unlocked each year.

04

**Unlock Duration:** Continues over a period of 10 years until all allocated tokens are distributed.

### Detailed Unlock Schedule:

**First Year (Lock-up):**

No tokens will be unlocked to ensure that the team and founders focus on building and developing the platform without the pressure of token sell-off.

**From the Second Year Onwards:**

Begins to unlock 10% of the total allocated tokens each year.

This distribution helps ensure that the team and founders remain motivated to support the project, while also preventing the risk of sudden sell-offs that could affect the token's price.

## 10. STAKING \$KOL AND \$KCC

Owners of KOL and KCC can participate in staking with attractive rates at King of Legends.

### Investment Option:

- Configuration: 50% KOL + 50% KCC
- Duration: 12 months
- Interest Rate: 6% per month

### Conditions:

- Minimum total of KOL is \$100
- Investors will use 50% KCC and 50% KOL for staking.
- The principal will be returned after the term ends at the initial quantity of KCC and KOL deposited for staking.
- After the term, investors will receive their principal back at a rate of 20% per month.
- Minimum withdrawal: \$20
- Withdrawal fee: 3%

## 10. STAKING \$KOL AND \$KCC

### Networking Rewards

**35%**

interest from F1

**25%**

interest from F2,  
provided that F1  
has invested a  
minimum of  
\$500

**10%**

interest from F3,  
with two F1s  
each investing  
\$500

**5%**

interest from F4  
to F8, with three  
F1s each  
investing a  
minimum of  
\$500

**2%**

interest from F9  
to F16, with four  
F1s each  
investing a  
minimum of  
\$500

- Maximum limit: 300%, reinvestment required
- Networking rewards are paid in USDT and can be withdrawn in KCC
- Minimum withdrawal: \$20
- Withdrawal fee: 3%
